

BIBLICAL GARDEN 101

Many Things To See, Do and Learn

Ready for hands-on learning? Dig into the history of Mount Zion Biblical Garden and learn how, during the Gold Rush, people came from all over hoping to strike gold. See the types of tools gold prospectors used and how this 19th-century American journey parallels our own spiritual walk. We also invite you to search for the ancient grinding holes around the property where Miwok tribal people once ground edible plants and seeds making good use of God's natural resources!
